

Glamour and Nude Photographer Andrea Seekircher in Germany (Düsseldorf)

„Andrea Seekircher“ is a well known name for many years now under the professional photographers in Germany, particularly in the area of fashion, glamour and artistic nude photography!

She was born and raised in Neuss in 1969.

She began at the age of 15 in her bedroom with her parent's camera where she hung a white sheet up against a wall and tried to take erotic photographs of her friend.

A while later she started a training course in Advertising Photography in a large Advertising Studio in Düsseldorf in the Rhineland.

Now, for nearly 20 years she has been living her dream and works as a full time Nude Photographer and Photographer Designer for fashion and glamour photography!

In her very lavish photo-shoots, in a Baroque furnished “Kronenstudio in Düsseldorf” (www.kronenstudio-duesseldorf.de), with a professional make-up artist and hair stylist, in a relaxed atmosphere with sparkling wine and beautiful background music, the pleasant laid-back nude photographer transforms “the housewife from next door” to a sexy Vamp!

Not only housewives, students, mothers and working women make up her clientele but also Escort ladies, Professional models, Escort – and Model agencies, Advertising agencies and Magazines.

Couples and men also let themselves be photographed by the well known photographer.

Andrea Seekircher being a female erotic photographer has a different style than most of the male photographers! Her erotic nude photography emerges through the eyes of a woman.

From woman to woman!

Her lingerie and nude photographs are playful, detailed, artistic and very aesthetic! Her lighting very individual and skillful.

Since 2003 the nude photographer takes digital photographs and at the moment she works with a Canon 5D Mark II as well as different Canon high-speed lenses. As flash equipment she uses Studio flash lights from Multiblitz namely many Xenolux 1500.

Nothing on the photographs will be changed later except sometimes the contrast.

Photoshop is of course available but is only used for retouching.

Nothing will be retouched on your nude or glamour photographs and just to be clear, the women in the pictures on her homepage (www.andrea-seekircher.de) are not models, they are transformations of a normal housewife into a model, they are just normal customers!

The nude photography clientele come to her in Düsseldorf from all over Germany and other countries, from different TV reports, publications of magazines and newspapers as well as from the Internet.

Women from Switzerland, Austria, Luxembourg, France, Belgium, Italy, Poland and even from the USA and Singapore book the photographer for an exclusive all-day glamour photo-shoot.

Thanks to the Internet her name reaches across the German boarder and brings her International success.

Her studio location is predominantly the very exclusive rental studios namely the “Kronenstudio in Düsseldorf”, www.kronenstudio-duesseldorf.de which, as the only fully furnished rental studio in Düsseldorf, with a four-poster bed, Baroque style sofas, Royal thrones and much more, is rented out to professional and hobby photographers.

However, her glamorous photography does not only take place in her photograph studio in Düsseldorf but also in 5-star hotels and castles.

Pro7 for example, filmed a Glamour photo-shoot for a day with Andrea Seekircher in the noble Presidential Suite in Schloss Bensberg and showed therein the work of the well-known Glamour and nude photographer!

Up to now she has often been seen on television, on Pro7 and RTL, with different TV reports in which every time it has been shown how she transforms “a housewife into a model”!

Here are the latest TV reports:
